PROFILE

Frontend Developer with experience in building responsive and scalable web applications using JavaScript, Angular, and React. Passionate about creating clean UI, improving user experience, and writing maintainable code. Currently expanding skills in React Native and modern web technologies to build high-performance applications.

WORK EXPERIENCE

Datasirpi Private Limited

2024 – PRESENT

Application Engineer

- Developed and maintained one mobile application and two web applications, ensuring high performance, scalability, and responsive user experience.
- Collaborated with cross-functional teams to implement new features, resolve production issues, and optimize application workflows.
- Integrated RESTful APIs, performed data validation, and improved system reliability through effective debugging and testing.
- Supported deployment, UAT, and production environments while maintaining clean, reusable, and scalable code standards.

zoi fintech services Private Limited

2023 – 2024

Junior Software Engineer

- Developed and supported two mobile applications, a CRM system, and a wealth management platform, ensuring secure and high-performance solutions.
- Collaborated with teams to implement features, resolve production issues, and enhance financial workflows.
- Integrated RESTful APIs, performed data validation, and supported deployment, UAT, and production environments while maintaining clean and scalable code.
- Optimized application performance and improved user experience by identifying bottlenecks and implementing efficient solutions.

PROJECTS

AR CRM

CRM system for managing shares, stocks, mutual funds, and SIPs, improving portfolio tracking and client management efficiency.

Jade Wealth Management

Developed a wealth management mobile application for real-time portfolio monitoring and secure financial management.
